YOUTHPHILANTHROPYCONNECT.ORG
OUR MISSION

Youth Philanthropy Connect (YPC), a special initiative of the Frieda C. Fox Family Foundation, connects youth grantmakers and the adults who support them to each other, to tools and resources, and learning opportunities, while also growing the movement of youth engaged in philanthropy. We are inspiring, serving, and helping the next generation of youth philanthropists (ages 8-21), who we know are changing the world now and will continue to be the future changemakers for social good! We convene youth funders across experiences and backgrounds to connect them together.

BUILDING TOMORROW TOGETHER

Youth philanthropy is a rapidly growing movement all around the world with new youth programs and new connections being made everyday. Our conference focus is centered on innovations in philanthropy and the next generation of philanthropists. At this conference, you will learn and contribute to the future of philanthropy among youth philanthropists who we know are the future of the field!

*Sequoia D*

If we want to make social change on a massive scale, it takes a major investment, not just of resources, but of time. How can we hone in on, plan for, and execute on projects that will take decades to complete? How can we move quickly and take risks, while also ensuring a sustained commitment to the causes we care about? Participants will share their ideas about projects that they are considering taking on, or are already in the midst of, and discuss their strategies for maintaining the commitment that it takes to bring about large-scale change. This action-packed opening discussion will be facilitated by the Institute for the Future, based on current research on the future of philanthropy.

engaging youth in philanthropy. Connect with others in the trenches to share what’s working and what’s not, as well as favorite resources and vital lessons for helping youth. You’ll also hear about resources, innovations, and lessons learned from a youth and adult from 2 newer programs!

What is philanthropy? Why is it important?

Sequoia A

Heather Jack, Rivers School, Amy Johnson, Classrooms for Change

Come explore what the word ‘philanthropy’ means and how your personal values and interests make it important to you. In this session, you will learn about famous philanthropists as well as develop a list of reasons why philanthropy matters. Get your hardhat and goggles ready… we will be building our own values tower!

Striking at the Root: Social Justice Philanthropy for the 21st Century

Sequoia F

Susan Eaton & Sheryl Seller, Sillerman Center for the Advancement of Philanthropy, Brandeis University

The author Henry David Thoreau once said, “There are a thousand hacking at the branches of evil, to one who is striking at the root.” If you aspire to move beyond superficial, temporary fixes to deep, longstanding challenges, this session helps you explore ways to do that. This interactive session introduces attendees to the practice of social justice philanthropy in the United States. We will explore differences between traditional
philanthropy or charity and social justice philanthropy and provide examples of what social justice philanthropy looks like in real places right now, examining funding in such areas as affordable housing, access to clean water, and environmental justice. We talk about why social justice philanthropy is especially relevant in an increasingly unequal society.

101: Discovering Your Passion in Philanthropy

Sequoia C

Jill Gordon, Youth Philanthropy Initiative of Indiana (YPII), Lizzie Jack, Rivers Givers & YPC, Danielle LaJoie, Magdalen Sullivan, YPC

This special session is for youth new to philanthropy! Learn how your passions can help change the world by using the great skills you already have! Philanthropy allows a person or organization to focus on one issue — or a list of finite issues — and really understand the ins and outs of solving that problem. It is a big responsibility to help make sure change happens and can be a lot of fun — come join the fun!

201: Social Perspectives in Action

Sequoia H

Hannah Dillree, MCFYP (The Michigan Community Foundation’s Youth Project), Jared Heddinger, MCFYP, Grace Maraugha, MCFYP

As philanthropists, our greatest asset to our community is the time, talent, and treasure we can give to others. But how do we adequately understand the needs around us? Everyone has a completely unique perspective from which they see the world, and we must be understanding and appreciative of all that we can in order to get the most out of our resources, even if that means accepting ideas that may initially seem foreign to us. If you’ve ever been interested in seeing the world through
THURSDAY, JULY 7TH

a different perspective, or improving upon your own, come to this interaction session! Join three members of the Michigan Community Foundations’ Youth Project (MCFYP) Committee in a powerful activity that explores these many differences and — what we can do to address them.

A private foundation enables families to live their values. In fact, in a recent survey, 62% of our clients told us that family involvement in their foundations is as important as making a difference. Read the full results of this survey at www.foundationsource.com/ypc16 to see how our clients make their foundations a family affair—and then call us to learn how you can, too!

Youth Leadership Theory: Practice Makes Perfect

Sequoia B

Patricia Barahona, Building Leaders In Innovative New Giving (BLING), Breanne Harris, Youth Empowerment Fund, Andrea Juarez, Youth Funding Youth Ideas

Youth today have access to more knowledge, are exposed to the issues of the world, and connect with people from all walks of life, daily, with the simple click of a mouse. The Internet has sparked a new generation of global citizens, just waiting for their chance to make a difference. Youth Leadership theory offers a foundation based in research and decades of practice in youth development, that is perfect for today’s emerging philanthropic programs. Our role, as adult allies, is to provide the tools and space for youth to capitalize on their unique talents and perspectives, to tackle complex problems with innovative solutions. In this workshop, you’ll learn the fundamentals of youth leadership theory, leave with tools to increase youth engagement in philanthropy, learn how to tap into the unique structure of your own philanthropic model, and collectively share challenges and strategize solutions.

Building Strong Leaders for Tomorrow: Youth Philanthropy for Ages 18+

*Sequoia C*

Raquel Barajas, Youth Funding Youth Ideas, Khayriyyah MuhammadSmith, Foundation Center, MCFYP, Ashley Naomi Rodriguez, Youth Funding Youth Ideas

Youth today are often the prime movers of social change. When we talk about youth we usually think about adolescents between the ages of 13-17 and we forget about transitional-age youth (TAY) — those that are ages 18-24 who are beginning to enter a different stage in their lives. However, TAY play an important role in philanthropy because they are the medium, the in-between, and the balance. It can be hard for TAY to figure out where exactly they fit in the philanthropy field. Am I technically still considered youth or am I an adult? We understand the unique skills and perspectives the next generation can bring to the philanthropic community. And we want our participants to leave with a better understanding how they — as experienced philanthropists — can guide the younger generation while highlighting the importance of being a transitional-aged youth.
